SUMMARY

Creative and solution-oriented software developer, with over 4 years of hands-on practice in front-end and back-end development. Passionate about building effective, user-centered solutions, I thrive in collaborative environments and I am driven by a commitment to continuous learning and innovation. I am currently expanding my skills in cloud computing to build scalable and innovative solutions. My goal is to leverage technology to create impactful, efficient systems that solve real-world challenges.

WORK EXPERIENCE

- AI Training Facilitator, At WeThinkCode_**

Mar 2025 - May 2025

 - Deliver AI training to technical and non-technical professionals, promoting accessible learning across industries.
 - Contribute to refining a cutting-edge, relevant curriculum that supports AI inclusion in South Africa.
 - Bridge the gap between AI theory and practical implementation, equipping individuals for the future of work.
- Technical Mentor, At WeThinkCode_**

Sep 2024 - Dec 2024

 - Guided first-year student teams through project understanding and execution, offering support on technical and academic challenges.
 - Assessed individual and team progress, identified areas for improvement, and provided detailed feedback to enhance learning outcomes.
 - Maintained consistent communication with the academic team to address student needs and ensure alignment with program goals.
- Bootcamp Mentor and Reviewer, At WeThinkCode_**

Jun 2024 - Aug 2024

 - Mentored and assessed bootcamp teams by providing guidance on project objectives and problem-solving approaches, ensuring a solid understanding of requirements.
 - Reviewed and graded project outcomes of bootcamp candidates, meeting consistently on Thursdays and Fridays to support team development and ensure project success.
